

Shutdown of Laboratory FC, BBQ and AC from May to June 2025

=====

This notice concerns laboratory users in all lab zones.

=====

Fume cupboards (FC), local exhaust points (BBQ) and air conditioning (AC) will be shut down by our BS colleagues for regular semi-annual maintenance according to the following schedule. FC and BBQ operation will be interrupted from 9am to 5pm; AC will be off for approx. 2 to 3 hours on the specified day. Please arrange to shut down all exhausted equipment and do not plan any hazardous operations. HSEO advises that all chemical cabinets be kept closed and to stay away from the affected labs if possible.

Would DSOs and lab coordinators please kindly alert and remind their staff and students of this program and to plan their work accordingly. Contact Lab Services at ext. 6847 if further information is needed.
