

Interruption of Laboratory Water Supply in Zones H, J, K & L of Academic Building

This notice concerns laboratory users in Zones H, J, K & L of Academic Building

Due to the typhoon signal being hoisted on 26 July 2026, the semi-annual cleaning of non-potable water tanks serving Zones H, J, K & L of Academic Building has been re-scheduled to 16 August 2026 as follows.

Water supply will be suspended during the specified time. Users should take note of this outage and plan accordingly to safeguard experiments and equipment.

Please bring this notice to the attention of all relevant faculty, staff and students.

Date	Time	Affected Building	Affected Zones	Suspension Detail
16 August 2026 (Sunday)	9:00am to 5:00pm	Main Academic Building	H, J, K, L	- Laboratory/NCW water supply will be suspended - Potable water supply for LAF will be suspended - Equipment cooling water will not be affected - DI supply will be available until its storage tank is depleted

Please contact Lab Services at ext. 6847 if further information is needed.
