Completed Projects

Solar PV System

The Solar PV Systems were installed on roof of Building in HKUST, and the project was completed in 2023. The total rated Solar Power was 2845kW with around 7479 pieces 2mx1m Solar PV Panels and the kWh generated per year was as below:

The regenerated energy of the premises was under Feed-in Tariff (FiT) Scheme with the power company to promote the development of renewable energy.

Year	kWh / Year	kWh / Day
2023	2,361,158	6,469
2022	2,182,158	5,979
2021	1,338,268	3,666
2020	13,908	38
